Compendium of the miscellaneous (Pakinnaka Sangaha)

In Compendium of the miscellaneous, we discuss further classification of consciousness and “nama dharmma” in to six categories. They are

1. Feeling (vedana)
2. Roots (Hethu)
3. **Functions (Kicca/ කෘතිය)**
4. Doors (Dvara)
5. Objects (Alambana)
6. Bases (Vattu).

Analysis of Functions (Kicca sangaha)

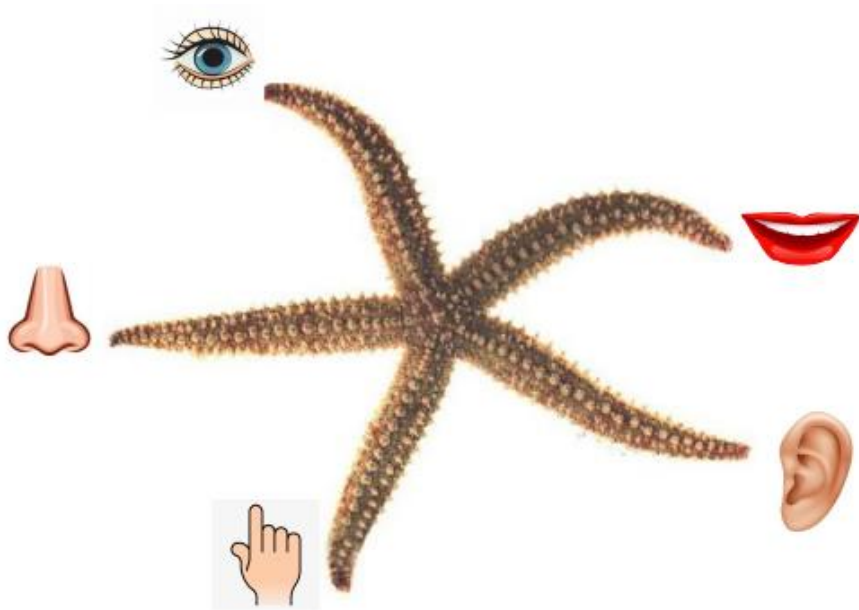

Classification of consciousness and mental factors based on their functions are called compendium of Functions. Consciousness's have fourteen functions.

1. Rebirth-Linking (Patisandi)
2. Life Continuum (Bhawanga)
3. Adverting (Avajjana)
4. Seeing
5. Hearing
6. Smelling
7. Tasting
8. Touching
9. Receiving (Sampatichchana)
10. Investigating (Santhirana)
11. Determining (Vottapana)
12. Javana (Impulse)
13. Registration (Tadalambana)
14. Death (Chuti)

Functions (Kicca sangaha)

Rebirth-Linking (Patisandi) – This is the first consciousness that arises after death, at the moment of conception, in the new place of rebirth.

Analogy of Sleeping star fish to understand “Life Continuum thought” moments

Think about a five limbed star fish sleeping in the water without knowing what's happening around it. There is a slight movement of the water closer to one of its limbs. That awakes the star fish and it looked around and identify that vibration is caused by another small fish.

In this example :

- State of the sleeping star fish is analogous to “Past Life Continuum”.
- Slight movement of water closer to one of its limbs to disturb the sleep is similar to “Vibrating Life Continuum”.
- Star fish awake from sleep is “Ceasing of Life Continuum”.
- Look around to see what caused the disturbance in one of its five limbs is analogous to “Five door advertence”.
- Identifying what caused the disturbance is “One of five sense specific consciousness”

Functions (Kicca sangaha)

Receiving, Investigating, Determining : Think it as a gift

- If someone give you a nicely wrapped gift, you will happily accept it. This is how “Receiving Consiousness” accept the thought coming from one of five senses (eye,ear etc)
- Then you want to know whats in it. Could it be your favourite book, video game or dress ? That ” Investigating Consiousness” is used to see what you have received through one of your five senses.
- Now you know whats in it. You may now want to decide whether to keep it (if you like it) or gift it back to someone else. This “Determining Consiousness” determines what further actions you take based on what you receive from one of your senses.

Impulse : is your further actions.

Registering Consiousness : This is the final step(s) to cease the particular thought process.
